CHARGING THE BATTERY

When battery power is low, the red LED indicator③ will flash and you will hear a beep every 30 every seconds.

1. Plug the USB cable ⑧ into your computer, USB car charger.

2. Plug the other end of the USB cable ⑧ into your computer or USB car char

3. The red LED indicator ③ on the Car Kit will light up and your Car Kit will start charging.When fully charged, the red LED indicator ③ will turn OFF

Attention! Make sure that the Bluetooth® Car Kit is fully charged before using the device.

TURNING ON / OFF

Turning ON: Press and hold the MF-button ⑥ until you hear a melody and the blue LED indicator ③ starts flashing.

Turning OFF: Press and hold the MF-button ⑥ until you hear a melody and the red LED indicator③ lights up briefly before turning off again.

Attention!
The Bluetooth® Car Kit will turn OFF automatically if there has been no Bluetooth® connection between the Bluetooth® Car Kit and another mobile device for more than 30 minutes.

FIRST USE PAIRING

You are required to pair the Bluetooth® Car Kit with your mobile phone once before using it! Make sure that the Bluetooth® Car Kit is turned OFF.

→ Press and hold the MF-button ⑥ until the LED indicator ③ starts flashing by blue and orange colors alternately.
→ Let your phone search for Bluetooth® devices.
→ Select the BC370 Car kit / BC370B Car kit in your mobile phone and enter the PIN code 0000 (*) to pair both devices. You will hear a beep.
→ The blue LED indicator ③ will light.
(*) Not required if your phone has Bluetooth® version 2.1 or higher

Attention!

• Make sure that the Bluetooth® function of your mobile phone is ON and that it is in close proximity to the Bluetooth® Car Kit.

• To ensure automatic reconnection between the phone and the Bluetooth® Car Kit, we recommend setting the Bluetooth® Car Kit as "Authorized" in the Bluetooth® menu of your phone! Please refer to the manual of your mobile phone for more detailed information.

• If the Bluetooth® connection is not restored automatically after disconnection, you can always restore the connection manually in the menu of your mobile phone.

MAKING CALLS

Incoming call: Press MF-button ⑥ once to ANSWER a call.

Incoming call: Press and hold MF-button⑥ (2 sec.) to REJECT a call.

During a conversation: Press MF-button ⑥ once to END a call.

During standby mode: Press MF-button ⑥ twice to REDIAL the last dialed number.

During Standby mode: Press MF-button ⑥ once to activate voice dialing (*)

(*) The voice dialing function is only available if it is supported by your mobile phone!

VOLUME / MUTE

Adjusting the volume:

Press "+" ④ to increase the volume level. You will hear a beep when max. volume is reached.
Press "-" ⑤ to decrease the volume level. You will hear a beep when min. volume is reached.

Turn ON MUTE mode:

During a conversation, press MUTE-button ② once to temporarily turn off the microphone.

Turn OFF MUTE mode:

During a conversation, press 1x MUTE-button② to turn the microphone back ON.

Reset: Press the "-" ⑤ and "+" ④ buttons at the same time for 10 seconds until you hear a beep and the LED indicator ③ starts flashing by blue

and red colors alternately. Your unit has now been reset to default settings.

MULTIPOINT Bluetooth®

Bluetooth® Car Kit supports MULTIPOINT connection, which allows you to connect and use 2 different Bluetooth® telephones AT THE SAME TIME with your Car Kit.

When 2 phones are connected to the Bluetooth® Car Kit you always have:

• Primary phone (1st phone connected to the Car Kit)

• Secondary phone (2nd phone connected to the Car Kit)

Attention!

NO Voice dial, NO redial possible for 2nd phone.

Multipoint pairing procedure

► PAIRING phone 1

Pair the 1st phone with the Bluetooth® Car Kit as described under "FIRST USE PAIRING". → Connect the phone to the Car Kit.

► PAIRING phone 2

Make sure Bluetooth® Car Kit. → Press and hold the MF-button ⑥ of the Bluetooth® Car Kit to enter pairing mode again. The blue & red indicators will flash alternately. → Pair and connect with the 2nd phone.

Attention !

After the 2nd phone is paired and connected, the 1st phone will be DISCONNECTED from the Car Kit. → Turn OFF the Bluetooth® Car Kit and then turn ON again, using the MF-button ⑥.

→Bluetooth® Car Kit will reconnect with both phones automatically.

Multipoint Connection Procedure

When the Bluetooth® Car Kit is switched ON, it will automatically search and connect with the 2 last mobile phones that had Bluetooth® connection with the Car Kit.

► If only 1 phone is available: only one phone will be connected to the Bluetooth® Car Kit. This phone will be the primary phone.

► One or both phones are shortly disconnected: the Car Kit will automatically reconnect.

Attention!

To ensure automatic reconnection between the phones and the Bluetooth® Car Kit, we recommend setting the Bluetooth® Car Kit as "Authorized" in the Bluetooth® menu of your phone! Please refer to the manual of your mobile phone for more detailed information.

If for any reason one of the 2 phones, or both phones, will spontaneously lose the Bluetooth® connection with the Bluetooth® Car Kit, it will automatically make a reconnection. If this automatic reconnection fails, you can always restore the Bluetooth® connection manually in the menu of your mobile phone.

Receiving calls on the 2 phones

If during a telephone conversation another incoming call is received on the 2nd phone, you will hear a BEEP.

Now you can:

► Answer the incoming call on 2nd phone: Press the MF-button ⑥ twice to HOLD the call on the 1st phone and answer the call on the 2nd phone. When you have accepted the 2nd call, you can:

► Switch between 2 phones: Press the MF-button ⑥ twice to switch between the 2 phones.

► End one of thecalls: Press the MF-button ⑥ once to end the current call and continue with the other call.

LED INDICATOR ③

Red indicator:

►Flashes in Standby mode: low battery capacity.

►Lights continuously while charging the battery.

►Lights continuously in mute mode.

Blue indicator:

►Flashes in Standby mode & talking mode.

Orange & Blue indicators:

►Flash alternately in pairing mode.

MICROPHONE ⑦

Make sure that the microphone⑦ is directed towards your mouth. For optimum performance, the microphone ⑦ should be located at a distance of 30-50 cm from the driver's mouth. Make sure that there are no obstacles in front of the microphone ⑦ of the Bluetooth® Car Kit.

MUSIC STREAMING

Once your mobile phone and theBluetooth® Car Kit have been paired and connected, you can stream music from your phone to the Bluetooth® Car Kit. The music will be muted automatically during a call.

LOW VOLTAGE PROTECTION OF BATTERY

When the battery voltage drops to 3.3V, the red LED ③will flash during Standby mode; and the Bluetooth® Car Kit would be shutdown automatically when the battery voltage is below 3.0V.

RESET TO DEFAULT SETTING

Press the "-"⑤ and "+"④ buttons at the same time for 10 seconds until you hear a beep and the LED indicator ③ starts flashing by blue and red colors alternately. Your unit has now been reset to default settings.

TECHNICAL DATA

Bluetooth® Specification: Version 4.0, up to a range of 10 meters

Supported Bluetooth® profiles: HSP, HFP, A2DP

Battery: 3.7V/650mAh Lithium polymer rechargeable battery

Operational temperature: +5℃ to +45℃

Storage temperature:-10℃ to +60℃
